The topics covered were: HPP Components, Summary of Survey Results, Review of Aspirational Goals, Zoning Strategies, Capacity Building Strategies, Housing Production Strategies, Housing Preservation and Direct Assistance.

Brad Goodwin noted that the lack of sewerage and excessive nutrient loading into local waters are a significant barrier to housing production, and that zoning and Board of Health regulations are not always a symptom of a Town's resistance to housing, but a response to negatively impacted water bodies.

Lee Hamilton noted difficulties in matching housing costs to income limits.
