

OLD KING'S HIGHWAY HISTORIC DISTRICT

EXTERIOR UTILITY EQUIPMENT (i.e. generators, air conditioner condensers and propane tanks)

While exterior utility equipment such as generators, air conditioner condensers and propane tanks are allowed in the Old King's Highway District, they must be hidden from view especially if visible from a public way. This can be achieved with 4 ft wood fencing or evergreen plantings. The type and style of any proposed screening is to be approved by the OKH Chairman and/or the Committee.

APPLICATION REQUIREMENTS:

- **Certificate of Exemption (to be reviewed by OKH Chairman)**

Please include the following with the application:

- ___ Color photo of front of the building
- ___ Color photo of area where equipment is to be placed
- ___ 2 copies of plot/site plan indicating:
 - where the equipment will be located in relation to other structures on the property
 - placement of proposed fencing/plantings
- ___ 2 manufacturer brochures/spec sheets for
 - equipment
 - fencing
- ___ \$20 application fee
