

Improving Our Local Water Quality – Public Meeting

Yarmouth Stormwater Management Assessment

A public meeting to review a completed stormwater assessment, and concept designs for improving water quality. Public input on potential improvements and proposed concept designs is encouraged and appreciated.

Tuesday June 13th at 3 p.m.

[Registration Requested](#)

[Virtual meeting via Zoom](#) (Passcode: 561548)

Please join the town of Yarmouth, the Association to Preserve Cape Cod and Horsley Witten Group to hear about a recently completed stormwater management assessment for areas of Yarmouth south of Route 6 including Lewis Bay, Mill Creek, Parkers River, and Bass River watersheds.

Contact April Wobst, APCC Restoration Ecologist at (awobst@apcc.org) with any questions.

This project has been funded by a FY23 Coastal Habitat and Water Quality grant from the Massachusetts Office of Coastal Zone Management.
